

How to Access Community Counts Data

START

1

Check readily available resources for quick access to available data

Community Counts Data Visualization Tool
(publicly available)

OR

DBD Gateway
(secure access available to the Surveillance Contact at your HTC)

2

If You Want to Explore Community Counts Data Further

Determine your research question based on what data are available

6

Submit your electronic application

GET IT HERE

5

Complete the electronic Community Counts Data Use Request Application

GET IT HERE

4

Review the Community Counts Data Request Guide

GET IT HERE

3

Once your Community Counts Data Use Request Application has been submitted, it will be forwarded for review.

The CC Science Work Group will review your application for scientific merit and provide feedback.

7

Complete the electronic Terms of Access to Restricted Community Counts Data

GET IT HERE

8

You will receive an email from ATHN with next steps. If needed, a meeting will be scheduled to discuss data request and fulfillment.

9

Prior to publication or presentation, submit your manuscript or presentation for review and approval through the Community Counts Presentation and Publication Approval Request

GET IT HERE

FINISH

All reviews take 4-6 weeks
